Check the location of the disk and free space in memory, battery level, temperature, voltage, CPU load and speed, gyroscope, pressure, light, CPU nuclei, compass and date and time. Everything in short. Google Play Fish Live Wallpaper If you like water creatures, choose Miss Fish Live wallpaper. Use it to create a beautiful 3D screen where you can watch different fish in a personal aquarium. Observe the fish flying, swim and compete. Add flowers, stones and mountains to the forefront and observe animated bubbles and many 3D effects. View all types of fish including Pearl Guami, Golden Fish, Swords and more. Ideally, when touching the fish, they react, giving them a fun, interactive element that really revives them. The latest versions add more fish, improve your aquarium look and run using Android 11. Google Play Forest Live WallpaperThe dense forest is located on the majestic mountain background and has many dynamic features. The intuitive night cycle gradually cleans and fades the wallpaper colors until the day, then the pepper star after dark. The trees also move as if they felt the wind. Google Play Rain Live Backgrounds Many of us like to watch and listen to the rain by the window, and the famous rain background image lets you watch the rain screen every time you turn on your phone. Animated wallpaper with rain droplets in the high resolution window is more than just rain and gray skies. The subtle flourishing effect prevents dark shortcuts and widget loss, and the background image is optimized for minimal resource consumption to save the phone's battery. Google Play Stalker Cat Live Wallpaper If you have always wanted cats to change the litter or provide your living room with comb, Stalker Cat Live Wallpaper may be your best choice. The animated wallpaper shows a naughty and highlighted black cat moving along the edges of the screen. It appears from random places along the edge of the screen, and that's enough if you think you have noticed it. Anne Pätzke, the artist behind the wallpaper, created this little creature so that it was subtle and charming, and we couldn't agree more. Paperland Google Play Paperland is a beautiful achievement in the 2D parchment paper world. The free version includes topics of Beach, Silent Night, Desert Migration and Grass, all of which have the same customizable aesthetics. You can choose a certain time of day or allow the sun to jump and start sync with your local time. Other options allow you to customize specific panoramic elements, such as trees, trees and heights of different hills, in addition to kinetics, such as scrolling speed. The latest version allows you to define your location for weather news and other thematic information. Google Play Shadow Galaxy Galaxy Collection is a stable offer that includes rendering options for galaxies such as ice, hell or Virtex, although we prefer the shadow version as it acts as a dark and subtle background. The background image will place your device in the center of the star-shaped galaxy, which is somewhat similar to a spacecraft that observes the universe. Configured settings include a numberAnd the speed of animation of heavenly bodies, but the default values are a good place to start. Now updated to Android 12. Google Play Weather Live Whether you want to know when you have to pack your boots, find missiles hidden at the bottom of the closet or put on flip flops, change the background weather is the right choice. The weather live offers a selection of current climate statistics not only from your surroundings but also from around the world. You can also determine effects such as rain drops, light currents and washed colors to make your phone facilitate current conditions. You can even see real-time predictions with satellite data and built-in algorithms to extend the life of the battery. Emoji's live wallpapers on Google Play Live Emoji wallpapers provide high-definition wallpapers in living colors with cute and sparkling emoticons. Whenever you cross or press the screen, these adorable emoticons smile back or show their love with a sweet stream of animated red hearts. There are a lot of favorite emoticons. The background is fully customizable: you can adjust the speed, size and density of detail - so you can immediately change them according to your preferences. A significant plus is also the battery life of the wallpaper. Google Play Museums Live Wallpaper If you are an art lover, the Live Wallpaper Museums will revive your home screen using artistic works of famous painters that blend, blur and darken the background to remain on icons and widgets. You may not be a fan of famous paintings. It does not matter. The application can also capture your art and photos and add them like mixed wallpapers every few hours. The application can also import galleries from other downloaded applications. Museums now automatically switch between the bottom navigation in height mode and the navigation bar on the left side of the screen in Google Play width, and degraded for your Inbox today check your delivery mail today!
