Continue

Grand Theft Auto IV: Episodes From Liberty City is a compilation of three games: Grand Theft Auto IV: The Ballad of Gay Tony. All cheats from the original GTA IV work with this version, and there are new cheats for the other two titles. Rockstar Games Enter the cheat codes as phone numbers using the in-game cellphone. Previously entered cheats can be activated from the Cheats menu in the cell phone at any time. Cheat Code Effect 362-555-0100 Restore health, armor, and ammo 267-555-0100 Restore health, armor, armore health, 0150 Weapon set 2 227-555-0147 Spawn Turismo (car) 227-555-0100 Spawn FlB Buffalo (car) 938-555-0100 Spawn FlB Buffalo (ca (motorcycle) 625-555-0150 Spawn Sanchez (car) Cheat Code Effect 826-555-0150 Spawn Hakuchou 245-555-0100 Spawn Hak 359-555-7272 Spawn Parachute 625-555-3273 Spawn Vader (motorcycle) 227-555-8666 Spawn Bullet GT 272-555-8666 Spawn APC (tank) 468-555-2526 Enable exploding sniper rifle bullets 276-555-2666 Spawn APC (tank) 468-555-2526 Enable exploding sniper rifle bullets 276-555-2666 Spawn APC (tank) 468-555-2526 Enable exploding sniper rifle bullets 276-555-2666 Spawn APC (tank) 468-555-2526 Enable exploding sniper rifle bullets 276-555-2666 Spawn APC (tank) 468-555-2526 Enable exploding sniper rifle bullets 276-555-2666 Spawn APC (tank) 468-555-2526 Enable explosion appears to the space of the s City by achieving certain goals, Unlockable How to Unlock Assault Shotgun Complete 40 gang wars, Automatic 9mm Complete 30 gang wars, Bati 800 Complete 30 gan off Shotgun Complete 10 gang wars. Released in 2008 concurrently with the DLC version of The Ballad of Gay Tony, this collection doesn't require any additional downloads or a PlayStation Network (PSN) account. Although the content is the same across all versions, there are a few notable differences between the original games and Episodes From Liberty City: Due to Liberty City map updates, multiplayer features in the Episodes From Liberty City wersion. The original radio music from Grand Theft Auto IV is not included in Episodes From Liberty City. Instead, there are new radio stations and music to choose from. The DLC version of The Ballad of Gay Tony is identical to the Episodes From Liberty City disc content. Multiplayer features are compatible with both versions. Video games, on the PC platform, are already available at low prices. However, there are many websites that offer PC games for free. Listed below are some of the best sites to download free PC games. Before you download a bunch of games, you may want to check out our guides on how to manage a huge catalog of games, you're going to want to check out Humble Trove. Lastly, if you have an older PC, you can read our guide on how to make sure games play smoothly. 1. GoG (Good Old Games) GoG, owned by the same studio behind the Witcher games, is dedicated to preserving classic video games from yesteryear. Every game for sale on GoG has one of the best systems in place for restoring old titles, usually done with the help of the original developers or current licence holders. While most games sold on GoG are pretty cheap to begin with, you'll find some real gems under the "free" and "new free games" categories. All GoG games are completely devoid of copy protection. You don't have to use the GoG Galaxy client to manage or play your games. You can download them as self-contained installers and make your own backups. 2. Epic Games Store Epic Games store Epic Games is the company responsible for the Unreal game engine as well as massive free-to-play hit Fortnite. They also run a digital PC game storefront known as the Epic Games Store. You'll have to download their software to access your game library. However, Epic gives away at least one game every week, which will require you to open an account in order to claim the free game. The idea is to get customers in the door, hoping they'll spend real money without being obligated to do so. 3. Steam The largest digital PC gaming storefront on this list is Steam, but people forget that it also hosts just about every free PC game worth playing. You get all of the benefits of Steam as well, such as cloud saves, achievements and automatic updates. If you're a PC gamer, you probably already have Steam installed on your computer. So head to the Steam store and click on the "Free to Play" category. This lists both games that are free-to-play or simply free in the true sense. The difference being that free-to-play games usually offer in-app purchases which add cosmetic items or make it easier to progress in the game. 4. Abandonware is software that doesn't have an owner or company to enforce copyright protection. So technically, the software is still under copyright and downloading it would be copyright infringement. However, since no one is around to enforce the licence, the software is effectively free. Downloading PC games from Abandonia might be illegal per the local laws so if you aren't sure check whether you're in the clear. This would involve searching for your copyright laws with regards to abandonware. A good place to start is by searching for your country's name and the words "abandonware laws". Abandonia's staff has become adept at quickly removing any titles that regain a license holder. The site preserves video games and you'll find plenty to entertain you here. 5. Itch.io The PC has been and remains the true home of Indie video games - titles developed by independent, small teams of developers or even individuals. Unlike consoles, you don't need special development kits to make PC games, hence the quirkiest and most innovative indie games are still found on the PC. Itch.io is quite possibly the most famous site when it comes to indie PC games. Indie developers can sell their games directly on this site, but you'll also find many free games here. You can also send money to a developer for a free game to show appreciation retroactively. It's also an excellent place to find games for Linux and macOS systems. 6. Acid Play is another site that offers some truly guirky and rare titles for free. For example, you'll find PC clones of games like Super Mario, Street Fighter 2, and older games that were quite famous in their time. Some of the titles here may not work on modern computers, but you can always set up a virtual machine running Windows XP or use compatibility tweaks if you really want to experience some of these dated, yet historically significant games. Zero-budget Gaming FTW Between these six sources of free PC games, you should be able to play for many hours without having to pay. While malware from the sites listed here is improbable, please run a virus scan on any executable files you download directly to your computer. Which are your favorite sites to find and download free PC games? If you're looking for specific free games to play, check out our recommendations for the best free PC games. Imagine the mods... Amazon, which has a habit of outing games before they've been announced, might have just confirmed GTA 5's arrival on PC. The listings appeared on Amazon's French and German sites, the former of which has now been pulled. The German listing is still live here (opens in new tab) and has Windows 7 and Vista listed as compatible platforms. But it's not just Amazon dropping clues. A leaked bug log for the game, with mentions of a PC version existing as far back as June 2012.PC Gamer pointed out that the log contains "PC development bugs, numerous notes on DX11 support and a related 'smog' weather setting."The leak actually appeared in an XML file back in September 23, and has been passed around GTA fans since. The list has recently put on a Google Drive server, which PC Gamer managed to grab some screenshots from before it was taken off.PC gamers have been calling for a port of the game since its release its get GTA 5 in March this year, so Amazon's slip-up is timed perfectly. Now, how about getting it on Xbox One and PS4 as well?why not have some fun in Los Santos with some GTA 5 cheats? (Image credit: Rockstar Games) Rockstar's wildly popular Grand Theft Auto 5 is the latest free game on the Epic Games Store, and after a rocky launch that took the marketplace down, you can finally grab the title at no cost. The initial announcement came from a now-deleted Epic Games Store tweet, which claimed that Rockstar's popular open-world crime game will be free to download on PC until May 21. The game's initial arrival led to the Epic Games Store crashing for several hours, but it seems to be holding steady as of May 15. Epic Games is offering the "Premium Edition" of Grand Theft Auto 5, which gets you the base game and the GTA Online multiplayer component, as well as a Criminal Enterprise Starter Pack that gets you \$1 million in in-game cash for kickstarting your online adventures. How to get GTA 5 on PC for freeIn order to nab GTA 5 on PC for free, you'll need to download the Epic Games Store launcher and create an Epic Games store launcher and create an Epic Games website (opens in new tab). From there, simply scroll down to the 'Free Games' section of the store and select Grand Theft Auto 5. Note that you'll need two-factor authentication enabled to get your free game, which you can set up right here (opens in new tab). Once that's set up, you'll have until May 21 at 11am ET to claim GTA 5 for free. According to GTA 5's system requirements, you'll need at least an Intel Core 2 Quad CPU Q6600, 4GB of RAM, an Nvidia 9800GT/AMD 4870 or better and 72GB of storage to run the game. But the recommended spec starts at a Core i5 CPU, a GTX 660 or better and 8GB of RAM. It's unclear if GTA 5 on the Epic Games Store has been doling out free games every month since late 2018, with previous notable giveaways including The Witness, Overcooked, the Batman Arkham Collection and Rayman Legends. But GTA 5 is by far the biggest freebie the service has secured yet, and could be the perfect antidote to your lockdown boredom.
