A beautiful and timeless love story of two relaxation in the academic year of 1986. Eleanor and the park are characters with which the reader is obvious. These two cannot live together or from each other. This book radiates love, the absurdity and inevitability of love as well as the strength and energy that comes from love. This first love that can break the heart and lead to despair. The end is unexpected and uncompromising, which means that you want to read again. Sort according to the most useful majority of the stars. The slightest stars. The last addictive story about a good interesting story super cool book ! If you start reading, you can't stop. You have to read this book by Eleanor & Park. I liked every chapter and I hardly dared to end the book. The end is unexpected and lets it read it again (what I did). We can say that I fell in love with this book ... a good script written by Eleanor and Park. I really liked this book. This is a novel for children, but they will also like adults. Well-written book with beautiful visual descriptions. Including an understanding of the world of young lovers. Addiction and fun at the same time. It was written by Eleanor and the Park of Eleanor and the park - these are two characters that hug them from the first pages to heart, and they never let go. Both characters are pleasant and a change in the prospects between the two teenagers didn't bother me at all. It is very pleasant to meet these two characters because they are completely different, but the similarity between them guarantees that they are definitely combined. Thanks to her terrible family situation, Eleanor is a shy and emotional girl. It is very difficult for her at home and you quickly feel sorry for this girl. Although the family situation is not bad, it is already pursued in a new school and has difficulties with new friendship. Eleanor is really sorry and it's good that the park is with her. The park is also strangeHe is the only half Korean in his school, he is interested in martial arts, reading comics and listening to real rock music. He's a good guy who seeks justice. She also has a gift for seeing beauty in Eleanor that other people don't, a gift more people should have if you ask me. He falls in love with an unfunny, but unique girl. The two teenagers are nice characters that will make you fall in love quickly. The structure of the relationship between Eleanor and Park is original and well thought out. On their first bus ride, the two don't speak to each other at all and end up being weird and stupid. This slowly changes as Park notices Eleanor reading his comics. He borrows his comics and interacts with each other step by step. This structure is very original, because in most books the heroes fall in love right away, but in this book it's the other way around. They aren't licensed at all, but they do share a love of comics and music. They are not sure about their relationship, but they do everything to be together. I think this book is very realistic and does not present a simple picture of relationships. This is the story of two strangers in difficult circumstances. So the fact that the action takes place in 1986 is perfect, because such bad circumstances were often discussed there. The slightly older look of the cassette also provided an old fashioned character which is a great addition to this book. The only thing I didn't like was the first telephone conversation between Eleanor and Park. It stalled too much and I was going too fast in my opinion. And this ending... After reading the last few sentences, I couldn't do anything, just sit for a few minutes and think about this book. The ending really moves you and is very unique. It's open-ended and can be quite frustrating, but it also ensures that you won't be able to get this book out of your head for days. Eleanor & Park is a beautiful book about two strangers who seek security and love together. Although this book is romantic, boys should give this book a chance because it explains the vision of a boy and a girl. After reading this book you can't wait to find your Eleanor/Park or you will be very happyYou have already found this man. A special book that will make you curious about more Rainbow Rowell books! This book really has a place on my favorite list! This review can also be read on my blog NerdyGeyfanboy by Eleanor & Park. There is really nothing to end the book and you will keep reading. Park. Park. Park and Eleanor experience the kind of romance anyone can imagine. It's interesting that it's not boring, written by Eleanor & Park. I read a lot about this book so I went into this book with a lot of expectations. For the prologue, ask yourself what happened that makes you want to read this story. However, I have to say that the book was disappointing: it was not slow and innovative. And yet it wasn't a bad book, maybe it would have been a better book, then it would have been a better book, the highest book, then it would never have been read all the bright spots. The story is two misfits that many young people can define as a strong point of this book. The book can also be read in session. If you like books like star failure, you can leave the book better.
