My two young sons loved Aaron as well. Caught a few little guys and then hooked a 25-pound salmon and later a huge -- maybe 15 pound steelhead. Review of: We Pound Em Sportfishing All 5 of us had a fantastic time out on the lake yesterday. Our guide Ryan did not disappoint. We all caught fish (Salmon and Rainbow trout). I can highly recommend this charter regardless of your level of fishing experience. I look forward to going again next year. Jennifer W Markham, Canada 1 contribution Review of: Ottawa River Adventures We found Bill by accident - had wanted to do a rafting trip with another outfitter, but we liked the flexibility of Ottawa River Adventures better. Bill was professional, timely, and great fun. My husband is recovering from an Achilles tear so it was important to me to make sure that we weren't getting into anything too physical. Bill tailored our morning so that my H didn't fall out of the raft and my son could try fishing for the first time. Bill knew the river very well and b/c he had a Zodiac, we were able to zip here and there (no rowing!). On top of tailoring the trip to our tastes, Bill also provided great information about the river and the animals and birds we saw. He took video and pictures, and delivered them via email in less than 24 hours. Remarkable. We have since passed along this information to anyone who has asked, b/c we highly recommend this experience. Thanks Bill! Another amazing day new tricks and techniques and new spots always keeping things fresh. The monsters we caught is more than proof we're with a true professional. Always a blast and can't wait for the next one. Thanks again Joe! This review is the subjective opinion of a Tripadvisor member and not of Tripadvisor LLC. Tripadvisor performs checks on reviews. Review of: Fish City Tours Master of Fishing / Genuine Guide Taro is an absolute legend. This guy not only understands fish and their patterns, but has an open mind. He is knowledgeable of his gear and more importantly how to entertain his clients. Taro took my girlfriend (beginner fisherlady) and I (intermediate fisherman) out on Lake Ontario for smallmouth bass and it was nothing short of the best day I've had fishing. Not only did he take the time to teach my girlfriend how to properly cast/retrieve a bait but he set her up for that smallmouth bite that she's been itching to experience. Myself on the other hand, I took away valuable knowledge and tips that I could have never gained if I didn't book this trip. Taro genuinely loves what he does and it's evident he's successful. Cheers to future success buddy. Do yourself a favour and book a trip with him now! This review is the subjective opinion of a Tripadvisor member and not of Tripadvisor LLC. The hut was clean, warm (propane heat) there was pots and pans and a stove and to our surprise even plates and cutlery which we had forgotten when packing. The huts are powered by battery and he even came mid day to give us an extra which we ended up not needing and to check on our minnows and propane. We will definitely return, and even though we would of just been happy with a nice quite night on the river we took home some pickereel and sauger. There was also an attacked toilet which was a nice touch. Thanks again Ron, Scott and Carl! This review is the subjective opinion of a Tripadvisor member and not of Tripadvisor LLC. Hi, Maybe 8 years ago (poor memory....haha) my wife signed me up for a "learn to fish" day. I fished off and on for many years but never really got beyond the little hooks and worms until that great day! I can't remember who the young man was but I've never seen that much tackle in a tuffle bagever! By luck I was the only one there that warm and sunny day. He went over jigs, hooks, lures, how to tie a knot (properly haha) and what each one did in the water. Then, we went over the different rods, reels and how to use them. I wanted to learn how to use a bait caster reel and I will tell you I didn't do well for the first few timesmy instructor was very patient and never complained when he had to clear the reel from the massive mess I made from the line on the reel! We then walked to the Grand River to try out my new knowledge. Although I never landed a fish that day, I did have a bite but more importantly, I learned so much from Bare Fishing. I'm retired and over 60 and now enjoy a much more enjoyable and exciting fishing experience because of my "Learn to fish" day. I've caught bass over 3 lbs, pike and walleye and now trying to catch a muskie. My fishing equipment is now more in tune with my knowledge and experience again, because of my time with Bare fishing. I just wanted to let you know of my long standing appreciation for your efforts. Thanks again, and as they say "tight lines" Marty Lamoureux This review is the subjective opinion of a Tripadvisor member and not of Tripadvisor LLC. Tripadvisor performs checks on reviews. Screamin Reels Fishing Charters Fantastic Day on the Water This was our first fishing trip as a family and I'm so glad it was on Captain Moe's boat. He made the trip so much fun for everyone on the boat. And the best part, we had delicious salmon for dinner. This review is the subjective opinion of a Tripadvisor member and not of Tripadvisor LLC. He's so easy to talk to, he made it feel as if I've known him for a while and we were just two friends fishing. Review of: Tank Industries Guide Service Darcy is the man, his passion and love for muskies is like none other and that transpired to a day full of follows! Chances at double digit day is possible with the amount of follows to the boat we got, none the less we managed three in 6 hours and saw a dozen atleast. If you wanna catch the fish of 10000 casts this dude is your guy!! Written September 17, 2020 This review is the subjective opinion of a Tripadvisor member and not of Tripadvisor LLC.
