### Working with the Properties of Mathematics

- 1) Which property is used in the following expression ?  $3(6 + 5) = 18 + 15$
- A. Associative Property of Multiplication    B. Commutative Property of Addition  
C. Associative Property of Addition        D. Distributive Property
- 2) Which property of addition is used in the following ?  $(7 + 9) + 5 = 7 + (9 + 5)$
- A. Distributive Property                        B. Commutative Property  
C. Associative Property                         D. Identity Property
- 3) Which is an example of Identity Property of Addition ?
- A.  $9 + 7 = 7 + 9$                                 B.  $(7 + 8) + 6 = 7 + (8 + 6)$   
C.  $4 + 0 = 4$                                       D.  $2 \times 1 = 2$
- 4) Which of the following does not show the Commutative Property of Addition ?
- A.  $a + b = b + a$                                 B.  $3 + x = x + 3$   
C.  $ab = ba$                                         D.  $3x + 4y = 4y + 3x$
- 5) Which operation will not change the value of any nonzero number ?
- A. Dividing by Zero                                B. Multiplying by One  
C. Adding One                                      D. Multiplying by Zero
- 6) Which Property of Addition does  $3 + 0 = 3$  illustrate ?
- A. Zero Property                                    B. Identity Property  
C. Commutative Property                        D. Distributive Property
- 7) Which of the following does not show the Commutative Property ?
- A.  $xy - 9 = xy$                                  B.  $yx = xy$   
C.  $x + y = y + x$                                 D.  $3 + y = y + 3$
- 8) Which property is used in the following expression ?  $(4 \times 9) \times 8 = 9 \times (8 \times 4)$
- A. Associative Property of Addition        B. Associative Property of Multiplication  
C. Distributive Property of Multiplication   D. Commutative Property of Addition
- 9) Which property is used in the following ?  $3 \times (6 + 8) = 3 \times 6 + 3 \times 8$
- A. None of the above                             B. Distributive Property  
C. Commutative Property                        D. Associative Property
- 10) Which Property of Multiplication is shown ?  $(5 + 8) \times 7 = 5 \times 7 + 8 \times 7$
- A. Associative Property                         B. Commutative Property  
C. Distributive Property                         D. Identity Property

#### Distributive Property of Rectangles Worksheet

Use the distributive property to find the area of the rectangle.

Simplify the Expressions - No Exponents

Worksheet # 3

1.)  $-4(8x - 4) + 3x$

2.)  $8 - 5(1 + 3n)$

3.)  $-3(x + 5) - 6$

4.)  $-8x - 7(8 + 7x)$

5.)  $5x - 4(8x - 1)$

6.)  $-2 + 2(2x + 7)$

7.)  $-5(x + 7) - 4$

8.)  $-5(x + 7) - 4$

9.)  $6 - (7 + 6x)$

10.)  $8(4x + 6) + 6x$

Distributive property worksheets 5th grade pdf.

Register and get access to: All Answer Keys An Ad-free Experience Premium/Full Screen PDFs Unlimited Access Math worksheets and visual curriculum Copyright © 2021 K5 Learning You are here: Home -> Worksheets -> Factoring/Distributive property With this worksheet generator, you can make customizable worksheets for the distributive property and factoring. These worksheets are especially meant for pre-algebra and algebra 1 courses (grades 6-9). The generator includes only very simple problems with linear expressions. We hope to add more problem types later. Basic instructions for the worksheets Each worksheet is randomly generated and thus unique. The answer key is automatically generated and is placed on the second page of the file. You can generate the worksheets either in html or PDF format - both are easy to print. To get the PDF worksheet, simply push the button titled "Create PDF" or "Make PDF worksheet". To get the worksheet in html format, push the button "View in browser" or "Make html worksheet". This has the advantage that you can save the worksheet directly from your browser (choose File -> Save) and then edit it in Word or other word processing program. Sometimes the generated worksheet is not exactly what you want. Just try again! To get a different worksheet using the same options: PDF format: come back to this page and push the button again. HTML format: simply refresh the worksheet page in your browser window. Below you'll find links to make some common type worksheets, meant for grades 6-8. Additional title & instructions (HTML allowed) Key to Algebra offers a unique, proven way to introduce algebra to your students. New concepts are explained in simple language, and examples are easy to follow. Word problems relate algebra to familiar situations, helping students to understand abstract concepts. Students develop understanding by solving equations and inequalities intuitively before formal solutions are introduced. Students begin their study of algebra in Books 1-4 using only integers. Books 5-7 introduce rational numbers and expressions. Books 8-10 extend coverage to the real number system. => Learn more In this worksheet, your youngster will work with the distributive property in equations using all four operations. Distributive Property Words ProblemsDistributive Property Words ProblemsYour students are on their way to mastering large number multiplication, so now it's time to step it up a notch! Challenge your students with this resource that requires them to solve multiplication word problems using the distributive property. The printable multiplication properties worksheets in this page contain commutative and associative property of multiplication; distributive property; identifying equivalent statement; multiplicative inverse and identity; and more. The pdf worksheets cater to the learning requirements of children in grade 3 through grade 6. Some of these worksheets are absolutely free of cost.
