If you cannot download this file, try it with CHROME or FIREFOX browser. Fent említett típusu CD lejatszó nem forgatja a lemezt és magától ki-be csukogatja a talcat. Ilyet még nem szedtem szét, ezért kerném a segítsegeteket néme persze érszakoskodni se akarok vele mert van árá is. SONY MHC 501 music center Sziasztok. A címben szereplő MCBen egy CD lejatszó van. A spindleCD forgató motor folyamatosan megy. Ha bekapcsolaskor van benne CD, rögtön beolvassa és lejátssza, de stop után felporog a motor. A meghajtó BA6397FP egyik motorra vezeto laban állandóan 1.6 V van. A meghajtó ICt rendeltem. Ha valakinek lenne más ötlete. Köszönettel SONY CDP770 CD lejatszó ugrik vagy ismétel Ud mindenkinék! Az a problémám a fent említett CD lejatszóval, hogy amikor kinyitom a talcat az eject gombbal, majd helyezem a CDt, majd becsukatom, kb. 2 másodperc múlva automatikusan kidobja. Aztán megint bezárom, de utána megint magától kidobja. Ezt a hibát kb. 34szer eljátssza, de utána meg már egyáltalán nem reagál az eject gombra. Ekkor a talca nyitva marad és nem tudom bezártni. Ekkor kikapcsolom a készüléket a fókapsolóval és behúzza a talcat. Majd újra bekapcsolom és ekkor kezdi beolvasni a CDt és helyreáll. Sajnos nem mindig az első ki és bekapcsolás után, valamikor ki és be kell kapcsolnom kb. 5szor, hogy meggyógyuljon. Azt is észrevettem, hogy pl.De az hogy lehet, ha a fókapsoló ki van kapcsolva.<http://chromoink.com/updates/candy-alise-65-user-manual.xml>

Ekkor nem világít a kijelző, még semmi, de lejátssza és van hang. Köszönöm a segítsegeteket! Udvozzlettel. Karoly. MEGOLDAS II. Idközben kicseréltem a kapcsolót, ez a biztos megoldás. Egyszerűen kicseréltem egy hasonló kategóriájú SONY lejatszóból. Elakadtam egy Sony STR DE235 5.1 érsítő javításában. Azzal a problémával került hozzám hogy nem működik csak 1 kimenet. A többi is működik csak nagyobb hangerőnél torzít. Szétszedtem átneztam a panel hátoldalát forrasztási hibát kerestem és egyéb merések végeztem. Összeraktam és bekapcsolt, 2 relé kattant. Kijelzőn a következő szöveg látható RIKUSZ kb 56mp és PROTECT. Elvileg szétszedés előtt teljesen tökéletesen bekapcsolt PROTECT felirat nélkül. Annyi történt a szétszedés során hogy a tranzistorokat megláztottam és vissza.. Kicseréltem a tranzistorokat MP1620, MN2488 és 1db feszültségstabilizátort 7812. A feszültségstabilizátornak a forrasztásai még volt repedve.. A feszültségstabilizátor amelyiken hűtőborda is van kepet csatoltam annyira melegegett PROTECT modban is hogy újjal nem lehet megfogni. Rakottam egy hangszórót azonnal el is durrant. Továbbra is a kijelzőn. RIKUSZ és kb 56mp és Protect. Muszerezettsegem jelenleg egy DMM van. Maxwell MX25201. Merések. DMMel. A C kivetés és a hűtőborda között nincs zárlat. Biztosítékokat nem verte ki. UPC2581 Forrasztás még volt repedve. onszippantóval felszippantottam a régi ont és újraforrasztottam.. TRvegfokozat 8db 1. lab 38.2V MN24888, MP1620Puffer kondikon 38V merhető. Kezdo vagyok a javítás tereen. Segítsegetekre lenne szüksegem! Valaszokat tippeket előre is köszönöm. Csatoltam egy kepet hogy melyik alkatrészeket kellene helyettesíteni, sajnos az eredeti

nem beszerezhető. utolsó kép. UdvCsadyYou can write in English language into the forum not only in Hungarian. Please do not offer the downloaded file for sell only use it for personal usage. Ha tudtok egy rajzot errol a keszulekrol, nagyon megkoszonnem. Sony CFDK10 halozati trafo Mekkora teljesitmenyu es feszultsegu lehet. Sziasztok. Igeny lenne erre a gepre a csaladban, igy eloszedtem. Taviranyito nincs meg,, de az a legkevesebb. Bedug, meg se nyikkan. Megjegyzem egy nagyon profi gep ahhoz kepest, hogy egy hordozhato kis valami. Motoros potmeter, reflexcso, forgofej, hihetetlen. Nos, a T901es trafo hianyzik belole. Rajz 47. oldalat nezve mintha 12Vos lenne. Megerositetek Illetve mekkora teljesitmenyut kene belerakni. Az eredeti jopofa kis sinrendszerben volt. Udv. Pityesz MEGOLDVA Sziasztok! Adott a fent említett erosito. 19791980 koruli gyartasu, kivulrol egeszen jo allapotban van. Belul, ahogy nezem, meg nem nyult bele elottem senki. En eddig 2db nagy pufferkondit csereltem a fo tapreszben. Szepen szol a TAPE 1 es 2 bemenetekrol, viszont ha radiora kapcsolom, ott nem ad hangot. A hangerot feltekerve mely alapbugas hallatszik csak, ami eleg brumm szeru. A frekvenciameroje valotlan ertekeket mutat, ahogy tekerem a keresojet, bar ez beallithato. Itt a tanyan megtalaltam a service manualjat a keszuleknek, de sokkal elorebb nem jutottam vele. Kiszaradt, vagy erosen kapacitasvesztett elkora gyanakszok. Talalkoztatok mar ilyennelTapok rendben, FR201 es 202 csereje utan az IC201 feszultsegei megvannak.

A gond annyi, hogy a service manual szerinti feszultsegek kozul rendre az AM uzemhez tartozo ertekek vannak jelen, hiaba van a savvalaszto tekero FM allasban. A kepen a normal zarojelben levok lennenek az FM uzem ertekei. Elobbi tekeros kapcsolo nem direkt kapcsolja a feszultsegeket, hanem PNP tranzisztorokkal, ezek kozott is talaltam hibasat, zarlatosat. A rosszakat csereltem. Tegnap par masodpercre megjott a hang FMen, de nem tudom mitol, visszahozni nem tudtam.Ezt a keszuleket az autommal egyutt kaptam es most szeretnem a muhelyemben erositonek hasznalni a szamitogephez. Sajnos azonban nem tudok rajta bemenetet valtani. A gomb mukodik, hiszen azzal is kapcsolom be, es ha teszek bele kazettat azt is váltja, de sajnos nem vált át. Kell vmi kulso rovidzar vagy valami amirol tudja a keszulek, hogy van rajta mas bemenet is Udv. Izirajder Similar manuals You can write in English language into the forum not only in Hungarian. This new technical theory for servicing shows the power supply block It also stops operation The system controller IC identifies the power supplies from the following Service manuals usually include printed circuit boards, block diagrams, exploded views, assembly instructions and parts catalog. Its invaluable source of information for everyone looking to repair their unit. You should look for Owners Manual. After placing order well send You download instructions on Your email address. Continue reading Sony Discman 15 July at 1838 Listening to the classic buttonking, D350 Paired with the Sennheiser HD598. This pairing sounds very clear and concise. Additionally, bass, not normally a strong point with the 598, carries impact and is very clean. I've always been impressed with the HD598s as a great balance between price and performance and are my goto for most genres. I've not listened to this specific combo much normally use the D350 with Grados due to the fact the D250 and D303 are the players I probably use the most listening to genres I associate with the HD598 instrumental orchestra, etc. I would say it falls behind the D250 a little bit in audio performance, but of all the 250s and 350s 25s and 35s in the US I've had pass through my hands, the D350s seem to have fewer issues.

<http://heidelberg-schloss.com/images/Dinamap-Pro-400-Service-Manual.pdf>

I've had a few D250s that had issues beyond my skill or desire to correct, but never a D350. It is a workhorse. As always, the experience of placing a physical CD in the player vs using a DAP carries its own unique enjoyment. The D350 really does bring a unique aspect to the experience with the myriad functions, buttons, and huge screen. These companies really were putting some serious attention to detail and focus on the quality for this era of Discman. This player is around 30 years old and still looks fantastic. The labeling is still in great shape, finish is beautiful and it functions flawlessly. It is one of the most unique players, and one I gain more appreciation for every time I pull it out to listen! Unfortunately, the prices on these are going up and they are getting hard to find. The D350 went largely overlooked about 10 to 15 years back when I noticed the vintage players

getting more online chatter. I've had a few of these both US D35s and global D350s in my possession at various times. Very few needed any substantial rework, but I went through refurbishing and selling them until I found one in the condition I wanted. This particular one also has the battery case and the CD player case. I do find the overall case is good for protecting the player, but makes it difficult to use similar to the D15 case. Maybe okay if you were walking with it, but I would never try to use a player without the anti skip while walking. talk about an exercise in frustration. Best listened to sitting still, and just enjoying the experience. See more Sony Discman 10 July at 1706 If the house was on fire and I could only save eight of them. This marking is located on the rear exterior. During repair, pay attention to electrostatic breakdown and also use the procedure in the printed matter which is included in the repair parts. The flexible board is easily damaged and should be handled with care.

Therefore, when checking the laser diode emission, observe from more than 30 cm away from the objective lens. Ordinary soldering irons can be used but the iron tip has to be applied to the solder joint for a slightly longer time. Soldering irons using a temperature regulator should be set to about 350 When replacing this part, replace it after confirming the sculpture of "MD LINK" beforehand. The clock settings are lost when you disconnect the power cord or if a power failure occurs. Press CD on the remote. You can select normal play " Do not attempt to push in Doing so may cause the Do not touch the surface. Incompatible Press TUNING MODE repeatedly until "AUTO" appears. Press TAPE on the remote. Make sure there is no slack in the tape to avoid damaging the tape or the tape deck. The timer and clock continue to operate. Turn down the volume on the system, and then press FUNCTION. You can digitally record from a CDDA disc onto the connected component. For a better experience, please enable JavaScript in your browser before proceeding. It may not display this or other websites correctly. You should upgrade or use an alternative browser. I have found the D88 and D515 manuals via google but D303 is nowhere to be found. Im excited about this just found a D303 cheap in a semiretired pawn shop, and I want to be able to realign it correctly. It skipped when I hit bumps but thats probably to be expected from a player with no ESP or suspension system. Still want the service manual. This is such a versatile player with its optical out and rearplaced line out that I could see the remote control being useful, and if I knew the compatible Sony type I could begin the search. Anyone Maybe the seller is a headfier. My D303 seems to be working perfectly. The optical output is fine, line out sounds great. When powered from a plugpack the backlight and optical become active but they do not work in battery mode for obvious reasons.

As much as I like the convenience of my iPod theres something nice about playing direct from the source. Still looking for D303 repair manual PDF, to have it just in case. By continuing to use this site, you are consenting to our use of cookies.
