In keeping with normally accepted commercial practices, the purchaser is advised to both confirm product specifications, and satisfy themselves as to product performance and exact configuration to suit each particular requirement before purchase. Thank you, for helping us keep this platform clean. The editors will have a look at it as soon as possible. But thirdparty drivers might still be available

for older devices that do require a driver. Always check for software updates before connecting the device to your Mac for the first time. If the appropriate driver is available from Apple, your Mac will install it automatically. Many vendors of printers and scanners have adopted driverless technologies such as AirPrint, and they are no longer providing drivers for new devices. If your printer was made in the last several years, it probably doesn't require a driver. This list is provided for reference purposes and is no longer being updated. Learn about AirPrint and the devices that support it. Apple assumes no responsibility with regard to the selection, performance, or use of thirdparty websites or products. Apple makes no representations regarding thirdparty website accuracy or reliability. Contact the vendor for additional information. Privacy Policy Terms of Use Sales and Refunds Site Map. That's just what Fuji Xerox has created for you with this new monochrome printer. A compact printing unit, small enough to sit on your desk that produces fabulous quality prints and yet with few moving parts it is also extremely durable and ultra quiet in operation. And best of all, with up to 20% savings in energy consumption it cuts down your power bills as well. This page requires Javascript. Modify your browsers settings to allow Javascript to execute.
