Yours Truly Debra Noland Louis and not longer have the Bike. I am really sorry, I cannot provide the manual at this moment I am really sorry, I cannot provide the manual at this moment A gentleman who answered the phone was kind enough to let me know DP is not in business and he did not know where to get parts. However, maybe he has a manual in the museum he could copy. I am looking for the plastic part that holds the metal arm on the pedal. Can anyone help me find the part Login to post Do you know where I can find so I can download Parts for Life Fitness Bikes Pedals Battery Pedal Straps SPORTSMITH net VP Exercise Bike Replacement Pedals 1 2 Stationary Bicycle Pedal Set with. Exercise Bike Pedals Pedal Assembly for all exercise bikes The second type is the The third type is the magnetic exercise bike For a manual, try Googling stamina R360 manual without parens. Where should I oil the bike to make sure everything works ok I would also recommend you oil the front wheel shaft to make sure that you can smoothly turn the handles. I was informed Vitamaster is defunct when I called their 800 number. The important part is the size of the pedal shaft. I will post a link to a video on how to measure the pedal shaft diameter as well as a link to some possible replacement pedals. Login to post The right side is a reverse thread and would need to be loosened in the opposite direction. Does anyone know where I can one at a good price There seems to be some kind of resistance. The faster you pedal the harder it gets, that is the whole idea behind the machine. It is air resistance, not like the cheapies that you buy at discount stores. It is a professional machine that a Doctor can write a program for, sports teams use them also because it is a total workout. Where did you buy it. They can give instruction on it. If you are having problems with it, take it in for service it may need an overhaul. We have sold over 3000 of them since they came out in 1981, so I do know what I am talking about, they are worth fixing. See the Recumbent selection here. It appears that the tensioning device is a magnetic brake. This would require that it be plugged into a power source and programmed to provide a desired tension. I've never used one of these so I can't say what kind of programming options there are or where they are found. Hope this helps. Richard.
