The Dictation Module features dictation file download and direct recording to the PC. All Rights Reserved. Note that the software can be configured in a number of different ways dependant on customer's requirements so this document can only show some of the most commonly configured options. If you need assistance Dictation Distributors Limited, ph 0900 55 300 PreInstall Checks Document last modified 16 November 2010 RP Page 1. Check the PC meets the minimum specifications required for the product. These are listed on the exterior of the product box, and in the product manual. Alternatively, you can go to the "Downloads" page of our website at www.dictation.co.nz to download the Product Spec Sheet. Ensure you have the all the necessary product components. This is printed on a separate light green or blue paper that is the same size as the CD cover.

Alternatively, if other people in your office use the same equipment, you may be able to copy their settings. If your site already uses the Olympus product, ensure you know where the sound files are stored on your computer network. If this is the first install for your site, and you wish to share the files with other users on your network, you will need to create a shared Folder Structure. See below for more information on the Folder Structure. Do not plug in the Digital Voice Recorder until after the software is installed. Folder Structure If this is a new install, and you wish to share the files with other users on your network, you will need to create a Folder Structure in a Shared Drive on your network, i.e. an area that can be accessed by all users. For easy recognition, we would recommend you call the folder " Dictation ", or similar. If you do not know how to do this, please contact your IT person. Within the " Dictation " folder you will need to create subfolders. The naming and content of these subfolders is entirely dependant on your specific requirements. If you wish to start with a simple Folder Structure, create the following subfolders under the main " Dictation " folder "Folder A", "Folder B", "Folder C", "Folder D", "Folder E", "Finished". If you would like additional information on some commonly used Folder Structures, please request a copy of "Customer Install Instructions Folder Structures". Once you have read this document, if you need more assistance, please phone Dictation Distributors to discuss options. Thank you, for helping us keep this platform clean. The editors will have a look at it as soon as possible. Make sure the WiFi network is connected and the security key for the encrypted network is correct. See all downloads available today. Allowing recording, playback, organising and editing all voice files. Watch the video below to learn more. When you purchase this software product, we will send you an email containing your license key shortly. Allowing recording, playback, organising and editing all voice files. Watch the video below to learn more. Now I can install other antivirus now. William B, US The uninstaller you recommend really works splendid and saves me so much time. Bob C, US Its so simple and easy to follow your uninstall steps. Thanks for your excellent job! Lucy W, AU Do you receive strange errors when uninstalling Olympus DSS Player Standard. Do you fail to install the updated version or other program after uninstalling Olympus DSS Player Standard. Many computer users can not completely uninstall the program for one reason or another. If some files and components of the program are still left in the system, that means the program is not completely removed and uninstalled. Those leftovers will slow down your computer and stuff your system with invalid files as well as result in many problems for your life, such as strange error popups and unable to install other programs.

There are many methods to uninstall the program, please see below To completely remove Olympus DSS Player Standard, you need to get rid of those remnants, otherwise, it will slow down your PC and block you installing other incompatible programs. Olympus DSS Player Standard, because deleting any single registry entry by mistake will lead to severe problem or even system crash. A third party uninstaller can automatically help you uninstall any unwanted programs and completely remove all of its files and free up your hard disk space. Introduction. PreInstall Checks. They are not intended to replace the manual that came with your product. Note that the software can be configured in a number of different ways dependant on customer s requirements so this document can only show some of the most commonly configured options. If you need assistance Dictation Distributors Limited, ph PreInstall Checks Check the PC meets the minimum specifications required for the product. These are listed on the exterior of the product box, and in the product manual. Alternatively, you can go to the Downloads page of our website at to download the Product Spec Sheet. Ensure you have the all the necessary product components. You will need o CD labeled DSS Player Pro Release 5 o Licence ID code that begins with the characters RT5. This is printed on a separate light green or blue paper that is the same size as the CD cover. Alternatively, if other people in your office use the same equipment, you may be able to copy their settings. If your site already uses the Olympus product, ensure you know where the sound files are stored on your computer network. If this is the first install for your site, and you wish to share the files with other users on your network, you will need to create a shared Folder Structure. See below for more information on the Folder Structure. Do not plug in the Foot Control until after the software is installed.

Folder Structure If this is a new install, and you wish to share the files with other users on your network, you will need to create a Folder Structure in a Shared Drive on your network, i.e. an area that can be accessed by all users. For easy recognition, we would recommend you call the folder Dictation, or similar. If you do not know how to do this, please contact your IT person. Within the Dictation folder you will need to create subfolders. The naming and content of these subfolders is entirely dependant on your specific requirements. If you wish to start with a simple Folder Structure, create the following subfolders under the main Dictation folder Folder A, Folder B, Folder C, Folder D, Folder E, Finished. If you would like additional information on some commonly used Folder Structures, please request a copy of Customer Install Instructions Folder Structures. Once you have read this document, if you need more assistance, please phone Dictation Distributors to

discuss options. Once the software is successfully installed, plug in the Foot Control use USB connection and Headset. Your PC should go through the process of loading the Drivers for the hardware. When you open the DSS Player Pro software for the first time, if you do not have the most up to date version, you will be prompted to run an Update we recommend you do this. Be aware, this may take 810 minutes. Configure the software see below then test before using in a real situation. Software Configuration AS5000 Transcription Module PAs Open the Olympus DSS Player Pro R5 v5.x.x Transcription Module software Start Programs Olympus DSS Player Pro Transcription Module Go to Tools Options and click on the Tabs shown below. Note that the settings shown are commonly configured options, and are not necessarily applicable in your environment. Folder Design Tab Use this tab to set the Properties for each Folder. In the left column, click on the Folder whose Properties you wish to change.

Properties are displayed and modified in the right pane of this window. If an Author intends downloading at the Typist PC, set Auto Download to yes, so that files will be downloaded automatically when the Digital Voice Recorder is plugged in. Set Notification to yes, if you wish to be notified when a new dictation arrives for typing. Change the Path by browsing to the appropriate folder location for Folder A. If you are using the simple Folder Structure, as noted on page 1, the location will be \server1\dictation\foldera where Server1 is the name of your company s Server. This screen shot shows Folder A Properties. Tick Enable this option to share the folder with DSS Player Pro R4 if other users in your office have DSS Player Pro R4. Download Options Click on Download in the left column If an Author intends downloading at the Typist PC, put a tick beside After downloading files, delete the original files. Once the files have been downloaded onto the PC, this option will ensure the DVR is cleared, ready for more recordings. This is how often the software will check to see if any new recordings have arrived. Select Support background notification when Transcription Module is not running if you wish to receive notification of new recordings, even when the Transcription Module is closed. Auto Collection Options Click on Auto collection in the left column Tick Activate Automatic collection function and select Move the finished dictation to Finished folder to automatically move files into the Finished Folder when typing is completed. Transcribe Bar Options Click on Transcribe Bar in the left column Use this screen to customise the buttons you see in the small Transcription Playback Bar. You can also choose how you want the recording time displayed in the small Transcription Playback Bar, i.e. display total length of file, or time left remaining in file. These can be found in your program. This should include at least DSS and DS2. If unsure, leave all ticked.

Additions to Standard Tool Bar Add the Intro Scan and Change Status buttons to the Standard Tool Bar Ensure you are on the main screen of the Transcription Module Rightclick on the Tool Bar to see all available features.
