Our library is the biggest of these that have literally hundreds of thousands of different products represented.

## Book Descriptions:

# Dterm Series I User Manual

An intelligent option for users who require multiple lines and multiple functions. The current feature will be indicated in the display above each button. If prime first line is in use, sublines will have a muted ring. MUTE will flash. In this state, your voice will not be transmitted into the handset, headset, or speaker whichever is in use. The LED will illuminate when MIC is on. The primary extension LED will illuminate when headset is on. Lamp lights steadily when a voice mail message has been left if voice mail is programmed for your extension contact ITS for voice mail assistance. To activate or cancel, press the Feature button first, then the appropriate number. The MIC button lights when microphone is on. The LCD displays the current volume LARGE OR SMALL. Press Feature and 2 to alternate. Your telephone has 10 different ring tones. After pressing Feature an 3, continue to press 3 until desired tone is heard. Options are SMALL low or LARGE high. Press Feature and 4 to change. Note If held line appears on other Dterm stations, the associated LED flashes red slowly. Press held line. Note Any station with this line appearance can retrieve the call. Caller does not hear this ringing. To retrieve call, press button for held line. To continue holding call without hearing automatic ringing, press button for held line, then press HOLD. Call can be retrieved only from telephone that put it on Exclusive Hold. Dial number of party you wish to consult. Converse with third party; when they hang up, you will automatically be connected with holding party. If third party does not answer, reconnect to holding party by pressing Transfer again. Broken dial tone indicates caller is placed on hold. Dial destination number, wait one second for call to connect, then hang up. Optional You may stay on the line to announce transfer of call. If party does not answer or line is busy, press Transfer to return to holding party. Press Transfer, receive interrupted dial tone caller is on

hold. <http://dgjst.com/upfile/daihatsu-feroza-workshop-manual-download.xml>

Dial third party. If no answer or busy, press Transfer to reconnect to held party. When answered, press Conf. Button Conf LED lights. Threeway conference is established. If one party hangs up, other two remain connected. Conf LED goes out. CFA button lights at your telephone or at Dterm of subline you are setting call forwarding for. Display indicates number to which calls are forwarded. If verifying for a subline, press subline button first, then CFA button. CFA light goes out or if canceling on a subline, it goes out on that phone. Dial number to which calls are to be forwarded; hear confirmation tone; hang up. CFBNA button lights at your telephone or at the Dterm of the subline. Display indicates number to which calls are forwarded. If verifying for a subline, press subline button first, then CFBNA button. CFBNA light goes out at your phone or at telephone of subline. If forwarded to a long distance number, long distance charges will be billed to your phone. With CFA activated, a telephone can receive calls only from the extension to which it is forwarded. Any combination of call forwarding may occur, up to five times to phones served by a single telephone switch call ITS for more information about switch service areas. CFA and CFBNA may be activated at the same time. When both are set, CFA overrides until canceled, then CFBNA takes effect. When BOTH telephones become idle, your telephone will ring. Display indicates CB and the extension number being called. Lift handset or press Speaker; call will ring until called party answers. Additional attempts will be indicated by a fast busy signal. Call Back is automatically cancelled if the

telephone that set the Call Back doesn't answer within approximately three rings. You are connected with the caller. Dial second party; converse when they answer. To return to first party, press Transfer; second party is automatically placed on hold. To continue to alternate between calls, press Transfer again. <http://eur-idea.com/userfiles/daihatsu-feroza-parts-manual.xml>

Last number dialed is displayed you may press Redial continuously until desired number is displayed. Stores a number for future onetime redial. Number is stored. May also be used to store the number of an incoming on-campus extension call. Display indicates digits stored. Press Feature button. Press Speed Dial button to be programmed. Dial telephone number or system feature code to be stored 24 digits maximum. Press Feature button again. Display indicates SPD SET. Display indicated digits stored. Press Feature button. Press desired Speed Dial button to be programmed. Press Feature button again. Display indicated SPD SET. Note This speed button can also be used to call the party directly. Press RECALL button and hear new dial tone. Requires a preprogrammed function button A voice call may be programmed on a onetouch speed dial button by pressing FNC button, SPEED DIAL button, dialing the extension, and depressing the TRF button. Save by depressing the FNC button again. Nec Dterm Series I User Guide.
