Service manual Programmable Washing Machine Daewoo DWF5590DP, DWF5590D Series Specifications, feature and technical explanation, structure of the washing machine, functions of the control panel, directions for installation and use, procedure of full automatic washing, directions for disassembly and adjustment, trouble shooting guide, concerning error message, convenient test mode, minute explanation diagram for each parts, circuit diagrams, parts list, parts diagram, p.c.b. parts list. I had to turn off taps under laundry sink. E2 have read code, but how can I fix. Have to turn dial to stop position to get washing out. Tried a different programme but still did the same thing. Does anyone have any ideas what problem is and how to rectify it. Like Share More 2 answers Mike G. 1 year ago I got exactly the same issue. Like Report Anne S 1 year ago No but for the past year we have just let it go to the one minute, waited a bit and then put the machine to stop. Waited till it clicked and were then able to open the door. Works fine. Worst machine for problems that I have ever had in my whole life. I will never buy a Daewoo again. Only had it just over a year when the catch on the door broke. Like Report nanny nelly asked 5 years ago DWDF1222 error code LE what does this mean. Like Share More 3 answers LalitaM 5 years ago Not really sure, but a quick google seems to indicate its an error with the door lock Like Report Nanny Nelly 5 years ago Any idea how to set the door sensor. <http://wstawiennictwo.pl/userfiles/delonghi-coffee-machine-manual.xml>

- **dwd-f1222 manual.**

Like Report Anna Chiesa 2 years ago the LE error should go away if you relock the door or if you take out some items, as sometimes it might appear when the load is excessive. Like Report glen ranger asked 6 years ago DWDF1221 Hi i have model dwd f1221 can you tell where the filter is so i can check if it is blocked. Like Share More 2 answers Shona Ward 6 years ago I think the filter is a little square door at the bottom. My machine actually caught fire and Daewoo had to replace it so please be careful and NEVER leave your machine unattended. Like Report GJB 5 years ago Its the door at the bottom right hand corner. The filter is the big round on the right. Open by turning either left or right dont remember and presto THERES THE FILTER. Like Report Nanny Nelly asked 6 years ago DWDF1222 WATER POURING OUT of detergent case. I have turned the tap down but not helping. Can anyone help Like Share More 2 answers Kristy 6 years ago Try less detergent. About half or even a third of the supplied plastic measurer in the washing powder box. Like Report Nanny Nelly 6 years ago Thanks i have solved the problem. Took the lid off, took off the pipe from draw to drum. Its was full of junk, cleaned it our with a bottle brush. PROBLEM SOLVED. Like Report Bulldog asked 6 years ago DWDF1222 Hi, Code on my washing machine is OE. I cant drain water out of the machine. Of anyone could help thanks. Like Share More 2 answers Helen P. Daewoo Electronics 6 years ago Hi there, OE is the drain error, you need to clean the lint filter located at the front bottom right hand side. Please refer to Page 20 of the User Manual it will assist you. Please help Like Share More 1 answer DropBear 6 years ago I believe E8 is a motor fault. Most likely it will be the motor brushes, they are easy to replace, but not at all cheap. The machine latches but does not wash. Keeps beeping LE. WD3011WW Like Share More 1 answer Shazzbar 6 years ago The coin

drain is probably blocked. <http://kredoteka.ru/uploads/delonghi-deep-fat-fryer-instruction-manual.xml>

On the bottom right there is a square panel, pop it open with a screwdriver or knife. Undo the black cap have towels down as it probably full of water and have a look and see if there is a coin or something stuck in the drain. Hope this helps. We got rid of our machine, too many issues and terrible customer service from Daewoo Like Report wayne sanford asked 7 years ago DWDF1222 my Daewoo front loader dwd f1222 wont go past wash cicle cant get cloth out Like Share More 2 answers Johnny B Gone 7 years ago My DWD F1222 went cactus twice, the second time was one month out of warranty. I had to take Castel to VCAT to get a refund. I recommend you do the same. Like Report GJB 5 years ago Go to drain cycle. After 3 minutes it will allow you to open the door. Hope your clothes arent too mouldy by now. On the bottom right corner of the front of the machine you should see a little panel. I cant even get it to turn on. Ive unplugged and plugged back in, but still nothing. What could be causing this lack of power. Like Share More 2 answers Johnny B Gone 7 years ago The fact that its a Daewoo washing machine is probably the first reason. Hope youre still under warranty cos repairs cost almost as much as buying a new one. Like Share More 1 answer Jette 8 years ago LE Error Code The washing machine or washer dryer door has been detected as open or unlocked. Like Share More 2 answers Heartbroken 8 years ago If you leave your door open overnight the water should evaporate, otherwise u can wipe it with a clog after each wash. If u forget to do both and it starts to smell a little musty then wipe it down with a little bit of eucalyptus oil and lemon oil on a soft cloth and that should kill any bacteria causing smells. Like Share More 5 answers Des 8 years ago E8 is not stated in the Instruction Manual, I have no idea what is wrong. Its the comp board that needs replacing. Try resetting the appliance by disconnecting it from the power for a couple of minutes.

If you still get the error message call in a technician. Whether you love or loath being in the kitchen, our community of reviewers have determined that out of almost 5,000 appliances on ProductReview.com.au, these are the best available! Nathan S. Nov 01, 2019 Best Fridges and Dishwashers in 2020. These large kitchen appliances are the backbone of your kitchen, meant to last you many years. ChildLock The ChildLock system has been used to prevent children from pressing any button to change the program during operation. Nanosilver sterilization washingOption By applying very fine silver particles on essential parts inside, the washer sterilizes up to 99.9% as is done by boiling wash.

Air bubble washingOption This is an advanced technology that generates millions of air bubbles inside the drum on washing sequence, and the bubbles dissolve the detergent particles completely and cleanse all the soil in clothes gently and neatly.
