Please complete each step of the business emissions calculator that is relevant to your business, using actual (or estimated) annual operational data. Press the Next button to skip any calculations. Measure what you treasure Humans use as much ecological resources as if we lived on 1.75 Earths. The Ecological Footprint is the only metric that compares the resource demand of individuals, governments, and businesses against Earth's capacity for biological regeneration. Featured Blog What does the Stockholm syndrome have to do with resource security? Read on! 50 years ago, from June 5-16, 1972, the United Nations held its largest ever gathering on development and environment: the Conference on the Human Environment, which convened in Stockholm. It faced tensions: colonies called for self-determination thus challenging the global development doctrine... More > 9 March 2022 On March 7th, York University's Ecological Footprint Initiative hosted the online launch of the National Footprint and Biocapacity Accounts, 2022... More > How to Help What's your carbon footprint? Use this interactive calculator to find out—and take action. A carbon footprint is the total amount of greenhouse gases (including carbon dioxide and methane) that are generated by our actions. The average carbon footprint for a person in the United States is 16 tons, one of the highest rates in the world. Globally, the average carbon footprint is closer to 4 tons. To have the best chance of avoiding a 2°C rise in global temperatures, the average global carbon footprint per year needs to drop to under 2 tons by 2050. Lowering individual carbon footprints from 16 tons to 2 tons doesn't happen overnight! By making small changes to our actions, like eating less meat, taking fewer connecting flights and line drying our clothes, we can start making a big difference. Carbon Footprint Calculator Do your part to create a more sustainable future for our planet. Donate today and you'll be a member, funding urgent direct conservation and advocacy. The power to protect and restore nature—now and for the next generation—is in your hands. [+] Your Current Emissions from Home Energy [+] Reduce Your Emissions Continue to Transportation [+] Your Current Emissions from Transportation [+] Reduce Your Emissions from Waste [+] Reduce Your Emissions Error Messages Please select your Primary Heating Source first. You must have an entry for Monthly "+heatSource+" bill. You must have an entry for Monthly Electricity bill. Please enter your average monthly bill for your Primary Heating Source first. Please complete Current Maintenance first. Please complete the entries above first. Maintenance. Because Maintenance Savings depends on this figure please enter a number and redo Maintenance to view revised Estimated Annual Savings. Please complete the Vehicle entries above first. (Reduce) Please try again or use a different ZIP code. Make a selection in all calculator sections and fields to improve your results. Your CO2 Emissions are lower than the U.S. average. Keep up the good work! New Total After Your Planned Actions Your Planned Actions Are Equal to: Or Small Actions Add Up If 100 of your friends took these actions, over 5 years their households would avoid [#] pounds of emissions, equivalent to the emissions from burning [#] gallons of gasoline. If you take all of the new actions you've selected: Dollar SavingsCO2 Reduction Turn down heating thermostat on winter nights by 0°F \$0 0 lbs. Turn up A/C thermostat in summer by 0°F \$0 0 lbs. Replace 0 incandescent light bulbs with ENERGY STAR lights \$ 0 lbs. Enable the power management features on your computer \$ 0 lbs. Wash your clothes in cold water \$ 0 lbs. Use clothes line or drying rack instead of dryer for 0 of your laundry \$ 0 lbs. Replace your refrigerator with ENERGY STAR models \$ 0 lbs. Replace your furnace or boiler with ENERGY STAR models \$ 0 lbs. Replace your window with ENERGY STAR models \$ 0 lbs. Use Green Power for 0% of your electricity 0 lbs. Perform regular maintenance on your vehicles \$0 0 lbs. Reduce the number of miles you drive on Vehicle 1 \$0 0 lbs. Replace Vehicle 1 with one that gets MPG \$0 0 lbs. Reduce the number of miles you drive on Vehicle 2 \$0 0 lbs. Replace Vehicle 2 with one that gets MPG \$0 0 lbs. Reduce the number of miles you drive on Vehicle 3 \$0 0 lbs. Replace Vehicle 3 with one that gets MPG \$0 0 lbs. Reduce the number of miles you drive on Vehicle 4 \$0 0 lbs. Replace Vehicle 4 with one that gets MPG \$0 0 lbs. Reduce the number of miles you drive on Vehicle 5 \$0 0 lbs. Replace Vehicle 5 with one that gets MPG \$0 0 lbs. Recycle 0 lbs. Your Estimated Totals: \$ lbs. By taking all of the actions you are already doing: Dollar Savings CO2 Reduction Turn down heating thermostat on winter nights by 0 °F test \$0 0 lbs. Turn up A/C thermostat in summer by 0 °F \$0 0 lbs. Replace 0 incandescent light bulbs with ENERGY STAR lights \$ 0 lbs. Enable the power management features on your computer \$ 0 lbs. Wash your clothes in cold water \$ 0 lbs. Use clothes line or drying rack instead of dryer for 0 of your laundry \$ 0 lbs. Replace your refrigerator with ENERGY STAR models \$ 0 lbs. Replace your furnace or boiler with ENERGY STAR models \$ 0 lbs. Replace your window with ENERGY STAR models \$ 0 lbs. Perform regular maintenance on your vehicles \$0 0 lbs. Reduce the number of miles you drive on Vehicle 1 \$0 0 lbs. Replace Vehicle 1 with one that gets MPG \$0 0 lbs. Reduce the number of miles you drive on Vehicle 2 \$0 0 lbs. Replace Vehicle 2 with one that gets MPG \$0 0 lbs. Reduce the number of miles you drive on Vehicle 3 \$0 0 lbs. Replace Vehicle 3 with one that gets MPG \$0 0 lbs. Reduce the number of miles you drive on Vehicle 4 \$0 0 lbs. Replace Vehicle 4 with one that gets MPG \$0 0 lbs. Reduce the number of miles you drive on Vehicle 5 \$0 0 lbs. Replace Vehicle 5 with one that gets MPG \$0 0 lbs. Recycle 0 lbs. Use Green Power for 0% of your electricity 0 lbs. Your Estimated Totals: \$ lbs. If you enter your monthly consumption in thousands of cubic feet, you'll get a more accurate estimate. If you enter dollars, our calculations assume that you pay \$10.68/thousand cubic feet. \$23/month is about average in the United States for a household of one person. 3,071 pounds of CO2 is about average for a household of one person over a year. If you enter your average kilowatt-hours, you'll get a more accurate estimate. If you enter dollars, our calculations assume that you pay 11.9 cents/kWh. \$44/month is about average in the United States for a household of one person. 5,384 pounds of CO2 is about average for a household of one person over a year. If you enter your average monthly fuel oil use in gallons, you'll get a more accurate estimate. If you enter dollars, our calculations assume that you pay \$4.02/gallon. \$72/month is about average in the United States for a household of one person. 4,848 pounds of CO2 is about average for a household of one person over a year. If you enter your monthly propane use in gallons, you'll get a more accurate estimate. If you enter dollars, our calculations assume that you pay \$2.47/gallon. \$37/month is about average in the United States for a household of one person. 2,243 pounds of CO2 is about average for a household of one person over a year. On average, green power costs roughly 2 cents per kWh more than conventional power. Even though it's a gas, CO2 is measured in units of mass such as pounds, kilograms, and tons. Below are some useful comparisons to put CO2 emissions in context\*: 100 lb of CO2 = emissions from burning 5 gallons of gasoline 500 lb of CO2 = emissions from burning 244 pounds of coal 1,000 lb of CO2 = emissions from burning 1.1 barrels of oil \*Equivalents are from EPA's Greenhouse Gas Equivalencies Calculator A programmable thermostat can automate turning up the A/C for you. To learn more, visit the Department of Energy's Programmable Thermostats page. You can only calculate savings for your A/C thermostat if you have input your current electricity usage in the section above. A programmable thermostat can automate turning down the heat for you. To learn more, visit the Department of Energy's Programmable Thermostats page. Check out ENERGY STAR's product listings for more information. 240 miles/week (12,480 miles/year) is about average in the United States, per vehicle. If you don't know your car's fuel economy, you can look it up at www.fueleconomy.gov. The national average is 21.4 miles per gallon. 11,141 pounds of CO2 emissions is about average for one vehicle over a year. Visit fueleconomy.gov's Keeping Your Car in Shape page for more information. Look for opportunities to combine trips, telecommute, use a carpool or ride-sharing program, use public transit if available, or travel by bike or foot instead of by car. To compare the fuel economy of different vehicles, visit the fueleconomy.gov site. 692 pounds of CO2 equivalent per year is about average for a household of 1 person. Your waste-related emissions are calculated based on the number of people in your household. Recycling is only one way to reduce your emissions from waste. View Your Report for more you can do. To complete the calculator, please make a selection in all fields or enter a zero to indicate you will not take the action. To complete the calculator, please make a selection in all fields or enter a zero to indicate you will not take the action. Recycling might not save you money (unless you can redeem your bottles), but it's easy and definitely saves resources. Fun fact: recycling just one can saves enough energy to watch TV for three hours! Using Green Power may not save money, but it avoids harmful emissions and reduces your carbon footprint. Your local utility or other electricity supplier may offer green power as an option. If you purchase some or all of your electricity as green power, enter the percentage here. For a definition of green power, visit .

28/07/2022 · To the average person, insurance is boring. It's forgettable. But for us, it's exciting. It's motivating. Every day is different and rewarding. Watch full episodes, specials and documentaries with National Geographic TV channel online. Direct and Well-to-Wheel Emissions. Vehicle emissions can be divided into two general categories: air pollutants, which contribute to smog, haze, and health problems; and greenhouse gases (GHGs), such as carbon dioxide and methane. Strategic Footprint. BMO's strategic footprint spans strong regional economies. Our three operating groups - Personal and Commercial Banking, BMO Capital Markets and BMO Wealth Management - serve individuals, businesses, governments and corporate customers across Canada and the United States. 15/08/2022 · However, unless you're 'pre-approved' in our eligibility calculator, you could be accepted for the card and get just 21 months at 0% and/or a higher 2% fee. You'll need to request the transfer during your application to qualify for either fee, it could be more if you wait. Full card spec - Up to 29mths 0% - 1% or 2% fee (min £3) - 21.9% rep APR Carbon Footprint Calculator. This worksheet shows how to do an eco scavenger hunt at home. Eco Home Scavenger Hunt. This worksheet shows how to plant your own plants in the backyard plus educational content. Plants for the Backyard. 27/03/2020 · At Frankenmuth Insurance, we believe the claims process should be straightforward—fast, fair and easy. 08/08/2022 · This online sales tax calculator solves multiple problems around the tax imposed on the sale of goods and services. It can calculate the gross price based on the net price and the tax rate, or work the other way around as a reverse sales tax calculator.The sales tax system in the United States is somewhat complicated as the rate is different depending on the state and the ... 16/08/2022 · The slope of a line through the points (3, 4) and (5, 1) is  $-\frac{1}{2}$  It can calculate the gross price based on the net price and the tax rate, or work the other way around as a reverse sales tax calculator. 2.Free slope calculator - find the slope of a line given two points, a function or the intercept step-by-step This website uses cookies to ensure you get the best experience.
